

KRITAMOS REAL ESTATE can undertake all the tasks which are required before drawing up a contract of sale.

The first set of tasks is the preparation of topographic plans, plan views, establishment of joint ownership, etc. and the lawyers.

The second set of tasks is the collection of all the supporting documents from the Tax Office, the Municipalities, the Citizens Service Centres, and the cadastres.

If you want a certificate from the urban planning department, our agency can guarantee the fastest completion of your task.

Our agency can also offer, for a small fee, the preparation of any kind of contract (apart from property sale contracts) namely parental donations, donations, distributions, acceptances, heritage, etc.

Furthermore, we manage negotiations and we conduct research on any kind of bank loan offers and we conduct any action required for their completion.

Finally our agency manages house rentals on a permanent basis, the rent of which will be attribute immediately to the person entitled. Our collaborating lawyer can also undertake evictions processes if such an action is required.
